PROJECTS

TODOist App - Using Flutter ⧉
- It's an Application for managing time and task that enables you to layout everything that you need to accomplish and plan your day from there.
- Link : github.com/nishitjariwala/todoist

Shoppy Application ⧉
- As our Team Participated in Smart Gujarat Hackathon 2020 we developed a Shoppy Application. Shoppy is the android application used for home delivery of all type of products like grocery, cosmetics, medicines etc. Using shoppy you can buy any product from any local shop from your area.
- Link : github.com/nishitjariwala/shoppy

Warehouse Management System ⧉
- As our A-Team Participated in Aatmnirbhar Hackathon hosted by IEEE and BVM SSIP we developed a WMS where manager can have track of all the products of his warehouse.
- Link : github.com/nishitjariwala/A-team-back-end

GST Bill Generator ⧉
- This portal is made from PHP, Bootstrap and MySQL for Vendors to make GST bill and track of the payment.
- Link : github.com/nishitjariwala/GST_bill_generator

Please Visit Portfolio to find more Projects. ⧉
